Raising public awareness of development issues and promoting development education in European Union (DEAR Programme)

Project Lead by Tuscany Region – Lot 5

SUMMARY /RATIONAL

The Action with Local Authorities (Lot 5) will focus on formal and non-formal Development Education specifically aiming to enhance young people's critical thinking of the interdependent world and active engagement in sustainable development on a local and global level. Cooperation between Civil Society Organisations (CSOs) and local authorities (LA) in the EU and, where possible, in EU partner countries will drive the Action to ultimately increase EU citizens awareness of the transitional challenges our societies are facing especially regarding the intersectional dynamics of the **ecological crisis**. LA's, CSO's and youth will co construct a shared critical understanding and concrete actions to increase EU citizens' awareness of the dots that need to be joined in order to achieve the SDGs. Particular attention will focus on targeting segments of society less sensitive to and apparently less involved with global challenges. The key to engaging less likely EU citizens in a meaningful and lasting way, generating local change based on global awareness will be fostered through joint actions between youth, CSO's , LA's and local and grassroots volunteer organizations, which are strongly tied to their communities and will be encouraged to participate in an iterative process of peer to peer and cross generational learning at local, EU and international levels.

The Action sets out to address the interconnectedness of global challenges using an ecofeminist lens which will be applied to all activities, forming the guiding ethos based on deconstructing dangerous power structures, not only between men and women but also between people and the planet where the dominating norm is one grounded in patriarchal societies both within and beyond Europe.

Tackling global issues is often seen as controversial, especially in countries where democracies and human rights are compromised. It is, therefore, usually harder for such countries to implement Development Education and Global Citizenship Education in formal Education. This Action will aim to provide those countries with support and opportunities so that the relevant LA's and CSO's can work with youth in non-formal education on the one hand as well as with volunteer organizations on the other (life long and life wide learning), in order to enhance EU citizens' belonging to local communities who are interested in, informed about and ready to act for sustainable development through an ecofeminist approach.

	<p>concrete actions at local level (eg. climate disaster prevention, biodiversity conservation, etc)</p> <p>3- To lift youth active engagement on local and global issues to promote European values such as equality and solidarity in their own communities</p>
Main activities	<p>Op 1</p> <ul style="list-style-type: none"> - Development of a tool kit (curricula) - Teachers' training - Learning programs in school (by teachers) - Learning programs with volunteers' associations - LA networking workshop at local and European Level to enhance the good practices exchange in order to foster the GCE in formal and no formal sector <p>Op 2</p> <ul style="list-style-type: none"> - Youth empowerment workshops focused on stimulating reflection, debates and discussion on issues with eco feminist women activists from EU partner country - International work camp in EU partner country (1 o 2?) - Manifesto <p>Op 3</p> <ul style="list-style-type: none"> - Eco feminist community labs to find and implement concrete lasting and sustainable solutions to local problems faced by or connected to youth and volunteer sectors (Local workcamps) - Local initiatives co-created by Volunteers' association (subgranting to be discussed) - Communication campaign drafted by youth activists and Local Authorities and adopted at local level

EC-DEAR PROPOSAL 2022/2023
DRAFT BUDGET TEMPLATE FOR CO-APPLICANTS

PROJECT IMPLEMENTATION COSTS						
Activity	Proposed Budget lines	Unit	# of units (in case of HHRR Indicate Monthly)	Unit rate (in EUR) (in case of HHRR Indicate the % of (FTE) Full Time Equivalent)	total cost	Check column for HHRR (add in this column only HHRR to check the impact on the final budget)
